Civil Engineering: High-Impact U.S. Universities, 1998-2002

Ranked by average citations per paper, among the top 100 federally funded U.S. universities that published at least 75 papers in ISI-indexed civil-engineering journals between 1998 and 2002.

Rank	University	Number of papers, 1998-2002	Citations per paper
1	University of Arizona	171	4.29
2	Stanford University	145	3.21
3	Johns Hopkins University	81	2.90
4	Cornell University	148	2.79
5	University of So. California	91	2.68

SOURCE: *University Science Indicators*, 1981-2002 (Deluxe version contains complete listings of publication and citation statistics for the top 100 federally funded U.S. universities in 105 subfields corresponding to subject areas covered in the seven editions of *Current Contents*. Standard version features data covering 24 main fields. Both versions are available from the [Research Services Group](#).)
