The fruits from my chess garden

A selection of endgames

by W.Proskurowski

‘A magnificently charming collection of endgame studies, this work is a masterpiece of chess training in a most aesthetically pleasing packaging. Each study is introduced briefly with wit and wisdom. Diagrams are clear. Moves are in algebraic. Chess analysis is pristine and insightful. This is a work of art and is recommended for chess enthusiasts of all ages and playing levels. Each study combines the beauty of a composed chess problem with the simplicity of a first grade primer.’
